

Dear Sir or Madam, I urge you to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we demand and deserve. In this day and time of technology it is appauling to have to settle for less when we can get much more from companies like XM and Dishnetwork! I have to have a big ugly roof top antenna on my house because I am not allowed to receive my local networks, such as ABC, CBS and NBC thru the clear digital satellite!! That is REDICULAS! Please come to the 21st Century with us and modernize the way we receive tv and radio signals! Sincerely, Al Davis.
